

North Carolina Pavement Preservation Council

The North Carolina Pavement Preservation Council (NCPPC), organized in 2026, is comprised of contractors, suppliers, consultants, local government officials, and academia. The purpose of the NCPPC is to support education and advance outreach assistance to local agencies throughout North Carolina for pavement preservation and asset management. The National Center for Pavement Preservation (NCPP) has partnered with the NCPPC to champion our effort in North Carolina. The NCPP is a non-profit, quasi-government organization recognized nationally as the leader in pavement preservation. The NCPP administers the AASHTO Preservation Management Technical Services Program and is actively engaged with the FHWA Office of Asset Management. NCPP is an authorized provider of continuing education credits.

Mission:

To Further Pavement Preservation
Education in North Carolina through
the National Center for Pavement
Preservation

North Carolina Pavement Preservation Council

Background

Members of the pavement preservation industry recognized the need to offer a neutral and productive environment for pavement preservation and asset management education in North Carolina. They approached the National Center for Pavement Preservation (NCPP) about organizing an educational outreach initiative for local agencies. This outreach is a dedicated initiative within the United States to focus pavement preservation educational efforts at the local government agencies. The North Carolina Pavement Preservation Council (NCPPC) was formed to provide financial resources to advance this effort within the State of North Carolina. Clint Blackburn is the coordinator for the state of North Carolina. The experience that Clint possess will help focus training on the immediate pavement preservation needs of the county and municipal government agency. A membership drive is currently underway to join the NCPPC. Membership is open to any interested party with a prerequisite that "sales hats" must come off.

Membership in NCPPC

To become a Member of the NCPPC is as simple as making a tax deductible donation to NCPP c/o Michigan State University *[a non-profit public university under the Internal Revenue Code 501(c)3]*. Make checks payable to: "Michigan State University," 2857 Jolly Road, Okemos, Michigan 48864. Membership in the categories below list donation requirements and benefits for each calendar year:

Category	Donation	Benefits
Founding Member	One Time Fee \$5,000 Subsequent Years \$3,000 Annually	Free access to all activities
Sustaining Member	\$2,000 Annually	Discounted rate access to all activities
Associate Member	\$1,000 Annually	Member rate access to activities
Academic Member	\$500 Annually	Member rate access to activities
Local Government Member	No Cost	Member rate access to activities

North Carolina Pavement Preservation Council

Strategic Goals

- **Promote the implementation and benefits of pavement preservation principles through training and education throughout communities in North Carolina.**
- **Provide recommended regional specifications and guidelines for pavement preservation techniques in North Carolina.**
- **Foster beneficial technology transfers between academia, industry, and agencies.**

NCPP Training in North Carolina

Regional Sessions will be held in North Carolina

Professional License CEUs will be provided to participants through Michigan State University

Audience: Local Government Elected Officials and Public Works Pavement Management Staff

Instructor: Various Instructors - All Associated with the National Center for Pavement Preservation

Subjects for workshops include Pavement Preservation Treatments & Concepts to show the economic benefit of Pavement Preservation:

- Basic Concepts of Remaining Service Life
- Life Cycle Cost Analysis
- Pavement Distresses
- Network Evaluation Tool
- Rejuvenators & Asphalt Sealers
- Crack Sealing & Filling
- Chip Seals
- Slurry & Micro Surfacing
- Other Treatments as Requested

Purpose:

These workshops provide information on basic pavement preservation concepts and implementation. The information will be introduced to agency staff and elected officials who may be struggling with current budget constraints. The information is designed to address the needs of their highway/street network. The benefits of preservation treatments will be reviewed and information shared. When the treatments are pro-actively applied to sound pavements there will be improved pavement performance, longer pavement life and increased customer satisfaction.
