Attendees should bring a laptop with AASHTOWare™ Bridge Rating installed to the on-site training. If you do not have access to a laptop, the Center for Technology & Training (CTT) has a limited number available for these training sessions. Please contact the CTT to reserve one.

AASHTOWare™ Bridge Rating software is available to local agencies and their consultants free of charge (courtesy of MDOT) for use on Michigan bridges. Please visit loadrating.michiganltap.org for more information.

For fulfillment of Continuing Education requirements, participants must be registered. The Center for Technology & Training’s continuing education policy is available here.

**Instructors**

Chris Gilbertson, Ph.D., P.E., is a Senior Research Engineer at the CTT at Michigan Technological University. He assists local agencies and their consultants with conducting load ratings using AASHTOWare™ Bridge Rating.

Mary Crane has over 26 years of experience as a computer programmer. She is the lead developer for the Roadsoft Safety module, conducts Roadsoft trainings, and provides Roadsoft and Bridge Load Rating technical support.

Creightyn McMunn, P.E. is the Manager of the Michigan Department of Transportation Load Rating Unit, where her group is responsible for overseeing the load rating of all bridges in Michigan.
