Northeast Pavement Preservation Partnership Annual Meeting November 3 - 5, 2009

What is the Northeast Pavement Preservation Partnership (NEPPP)?

The Northeast Pavement Preservation Partnership is a regional forum of pavement professionals from State and Provincial Agencies, Contractors, Suppliers, Academia, Local and Federal Government Officials, all working together to take advantage of the synergy to be gained from sharing information and identifying common issues for further investigation. It provides a forum to share and publicize information describing improvements in research, design, specifications, materials and construction practices, and to promote the benefits of Pavement Preservation through education and application. This year there will be four major themes running through the meeting: national/international perspective, environment, pavement management, and specific technical presentations.
