Southeastern States Pavement Association Management and Design Annual Meeting May 11—13, 2009

What is the Southeastern States Pavement Association?

For over twelve years, the Southeastern States Pavement Association (SSPA) has been the primary technology sharing and technology deployment activity for pavement management and pavement design engineers from twelve State DOTs in the Southeastern US. Since 2001, the FHWA Resource Center has provided financial and logistical support for the conference on an annual basis. The conference is so popular among pavement management and design practitioners that over the years we have attracted participants from the States outside the Southeastern US such as Washington, Missouri, Illinois, Ohio, Montana, Delaware, Nebraska, Oklahoma and even Canada.

Where will the Association Meeting be held?

The meeting will be held in New Orleans, Louisiana at the Hotel Monteleone. The hotel is located in the French Quarter which provides many options for dining as well as sightseeing after each daily session
