

Policy Task Group

Contracting Policy - 1

HOW DO WE GET THE RIGHT TREATMENT DONE THE RIGHT WAY?

- **Share Ideas between industry & agencies**
- **Make Contact with Suppliers**

Contracting Policy - 1

WHAT DO WE NEED?

- **Contractor Certification**
 - **Process Certification**
 - **Performance Specifications**
 - **Agency Participation**
- 

Contracting Policy - 1

Action:

- Challenge industry to:
 - *Develop process & contractor certification*
- Challenge agency to:
 - *Be open to single source supplier*
 - *Provide test sites*
 - *Oversee industry development of certification process*

Planning Policy - 2

Policy based pavement preservation triggers as a means to shift from reactive to proactive mode:

Action:

“Fit money to plan - not plan to money”

- **Integrate pavement preservation treatments into the PMS**
- **Develop network strategy**
- **Dedicate funding to pavement preservation**

Public Relations Policy - 3

Communicate the value of pavement preservation to the public:

Action:

- **Set pavement condition goals**
- **Discuss facts, such as good roads bring economic development**
- **Show taxpayer savings when road life is extended**
- **Use analogies**

Internal Relations Policy - 4

Communicate the value of pavement preservation within the agency:

Action:

- **Sell the concept to all agency personnel through training**
- **Use resources to convey the message (ncpp, fp², FHWA, etc)**
- **Adopt uniform terminology & definitions**

Questions ?

Thank You
