

Alberta Transportation Department

- 26,000 km of paved highways
- 4,800 km of gravelled highways
- All construction projects tendered and constructed by private contractors
- All traditional maintenance carried out by private contractors based on tendered, multi-year, regional contracts.
- All project level design, engineering and project management carried out by engineering consultants.

Alberta Transportation Preservation Initiatives

- Prior to 2002 – Maintenance and Rehabilitations Separate Activities
- 2002 – Guidelines developed for Preservation of programmed rehabilitation projects
- 2004/05 – Guidelines being developed for Preservation for pavements of all ages

AT Challenges to Develop and Implement a Pavement Preservation Program

- Administrative (\$ and budgets)
- Political (internal and external)
- People (whole life pavement management)
- Expanding the Tool Box
